⑤ DE-ME006-G80 PRISMATIC GOLD

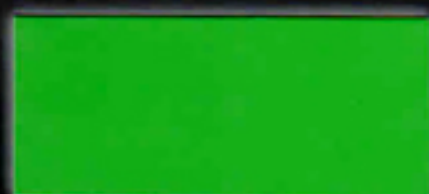

Note:

- All colors are Lumiflon™-based fluoropolymer coatings produced in our continuous coil coating line.
- Custom colors are also available. The minimum quantity is 1000m² per single standard panel width in Solid, Metallic, Sparkling and Prismatic colors. For the custom colors of Stone, Timber, Metal and Abstract, please consult our offices or our distributors, since the conditions depend on the design.
- The colors displayed in this color chart may differ slightly from actual products. Confirm the color with the color sample.
- The standard gloss rate of each color is specified after the color code starting with "G" and the respective percentage [e.g. DE-M9010-G30]. Gloss levels of 15%, 30%, 50% and 80% are available for all the colors shown here. When placing an order, please be sure to specify the gloss level as well as the color code and the name.
- Colors may vary slightly between production lots. To ensure the color consistency, we recommend placing total requirement in one order. Should you use material of the same color from different production lots in one project, please make sure to consult our offices in advance.

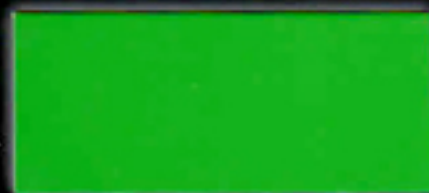

Hinweis:

- Bei allen Farben handelt es sich um eine Lumiflon™-basierte Fluoropolymerbeschichtung, die in einem speziellen Farbbeschichtungsverfahren aufgetragen wird.
- Kundenspezifische Farbwünsche sind ebenfalls erhältlich. Die Mindestabnahmemenge für einfarbige, metallische, glänzende oder Regenbogen-Farben beträgt 1000 m² pro Standardplattenbreite. Bei kundenspezifischen Farbwünschen unserer Stein-, Holz-, Metall- oder Abstrakt Serien variieren die Konditionen je nach Design. Bitte wenden Sie sich hierfür an unsere Verkaufsstellen oder Handelsvertreter.
- Die in dieser Farbkarte aufgezeigten Farben können geringfügig vom Endprodukt abweichen. Bitte bestätigen Sie die Farbe anhand des Farbmusters.
- Der Standardglanzgrad der einzelnen Farben ist jeweils hinter dem Farbcode angegeben, beginnend mit einem "G" und der entsprechenden Prozentzahl (z.B. DE-M9010-G30). Alle in der Broschüre aufgeführten Farben sind mit einem Glanzgrad von 15%, 30%, 50% oder 80% erhältlich. Bitte vergewissern Sie sich, dass Sie bei einer Bestellung sowohl den Glanzgrad wie auch Farbname und -code angeben.
- Die Farbtöne können bei verschiedenen Produktionschargen geringfügig variieren. Um ein einheitliches Farbbild zu gewährleisten empfehlen wir Ihnen, die komplette Bestellung auf einmal aufzugeben. Sollten Sie Materialien derselben Farbe aus unterschiedlichen Produktionschargen nutzen empfehlen wir Ihnen, im Vorfeld mit unseren Verkaufsstellen Kontakt aufzunehmen.
